

Invigorate your point of sale thanks to digital signage

Digital signage is a **communication tool** which allows you to **broadcast videos or in real time updated content** (weather, news, social networks...) on screens.

In the shop window, or inside the store, screens allow you to attract more clients, to inform, to make the customer more loyal and to encourage purchases.

Inform

Broadcast information about your products and enrich the consumer experience closest to the purchase

Boost

Boost your sales by using the **CityMeo** solution in your point of sale

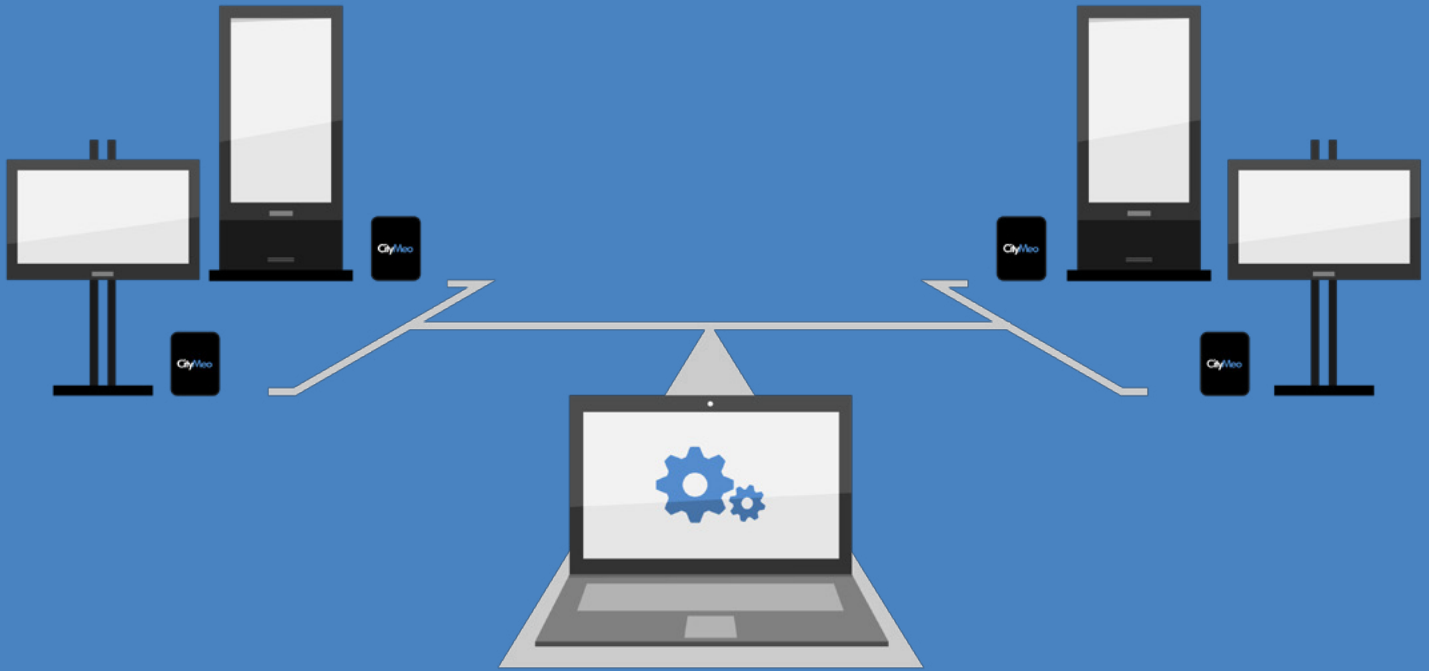

Attract

Show your brand in the shop window and seduce visitors in order to generate more flow in your store

“ Finally a tool that allows me to manage my fleet of screens easily and from a distance ”

Manage your screens from a distance, with ease!

Quick

Broadcast all your images, videos and documents in but a few moments, limitlessly

Powerful
